

Glogster

1. Go to www.edu.glogster.com and click on "Register to EDU".
2. Fill in the required information and click on "Sign Up".
3. Log-in and click on "create new glog".
4. There are two graphics on a white background. I click on each graphic and delete it by clicking on the trash can. If you want one of the graphics, then don't delete it.
5. Click on "wall" on the bottom of the magnet tool list and chose a background. You can always change it later.
6. Click the background you want and then click "use it".
7. Next, click on "text" and then, "titles". Chose a title style and click on it, then click "use it".
8. Click an drag any item on the wall to move its position.
9. Click on the title box and then click "edit", change the title to what you want.
10. Choose "graphics" on the magnet tool to add pictures. You can upload your own photos under "images" and use them. Add text by adding a text box.
11. Any graphic, image, text box etc. can become a link to either a web page or another glog page (if to another glog page, you have to create the other page first). To create a link:

Click on the graphic, image, text graphic etc and then click "edit".

Click on the double link icon and you will see a place to add the URL for where you want that link to go. It's best to go to the page you want the link to go to and copy the URL from the address window and paste it in.

Click "Apply".

Click "OK" when you are finish with all your edits.

12. When you are finished creating your glog, click "Save or Publish".
13. Name your glog and then select a category. Add tags (key words that describe your glog) if you want.
14. Click "Save & Publish".
